FOR IMMEDIATE RELEASE:

Announcing Skyline Eco Adventures Akaka Falls Zipline Course - on the Big Island of Hawaii

Honolulu, Hawaii - June, 20, 2011 Skyline Eco Adventures (www.zipline.com) is proud to announce the opening of its newest zipline course. Located below Akaka Falls, the first US zipline company continues to lead the industry in adventure, safety, and innovation with the completion of its Big Island zipline tour.

Skyline Akaka Falls is the only zipline tour in the World where guests can zip on a line that stretches well over ½ mile and soars directly above a private 250 foot waterfall. The 6 line, 2.5 hour tour flies guests over lush ravines backdropped by dramatic ocean and mountain views on the famed Hamakua coast.

Father and daughter team, Scott and Megan Boren, own and operate the new Big Island zipline course that is the first franchise for Skyline Eco Adventures which opened in 2002 on Maui as America's first commercial zipline tour.

"When we first saw this incredible waterfall, we wanted to do what no one else has done and zip not beside, but right over it," remembers Scott.

Skyline helps set the industry standards for safety, through its active involvement in multiple industry committees and groups. The company has safely conducted nearly 2 million customer zipline crossings at its multiple zipline tour locations, making it the United States' most experienced zipline operator. Skyline Akaka Falls utilizes Patent-Pending zipline equipment, designed by Skyline Eco-Adventures' Technology Division to exceed all industry safety standards. The tour guides are fun, knowledgeable, and complete over a month long training program before leading tours.

Skyline is a carbon neutral company, a proud member of 1% for the Planet, and strives not only to inspire awe for the natural wonder of Hawaii, but also to educate guests about Hawaii's unique history and culture, while making significant contributions to environmental and cultural preservation efforts throughout Hawaii.

"The course has something for everyone, whether you're an experienced zipper or not. Each line is unique and exciting in its own way. And the last line over the waterfall will take everyone's breath away," smiled Megan.
